SUMMARY

Computer Science undergraduate (University of Chittagong, expected 2026) and Founder/CEO of Livora, a full-stack AI-powered healthcare platform that won 2nd place and an incubation package at the ITBI Student Startup Pitch Fest 2026 (CUET). Builds production-grade React/TypeScript interfaces end to end, from Figma handoff through code review to live deployment, with a strong eye for CSS accuracy, responsive layout, and cross-browser correctness. Uses AI coding assistants (Claude, Copilot) daily while retaining full ownership and understanding of shipped code. Based in Chattogram.

EXPERIENCE

Founder and CEO - Livora (Self-employed) | May 2026 - Present

Chattogram, Bangladesh (Hybrid)

- Lead product, engineering, and business strategy for Livora, an AI-powered healthcare platform serving patients, doctors, lab technicians, and hospital administrators
- Won 2nd place at the ITBI Student Startup Pitch Fest 2026 (CUET), securing 6 months of free incubation space, mentoring, and startup-ecosystem support worth BDT 100,000
- Conducted an AI training workshop on the platform for practicing surgeons in Chittagong

SKILLS

Front-End: React, TypeScript, JavaScript, Responsive Design, Cross-Browser Compatibility, REST API Integration

Back-End: Node.js, Express, Prisma, Sequelize, PostgreSQL, MySQL, Socket.IO

Tooling: Git/GitHub (branching, PRs, code review), Docker, CI/CD (GitHub Actions), AI-Assisted Development (Claude, GitHub Copilot)

AI / LLM: LLM Integration (Google Gemini), RAG (Retrieval-Augmented Generation), Prompt Engineering

Other: Languages (Python, C++, SQL), Data Structures and Algorithms, Competitive Programming

PROJECTS

Aurora Gadgets - Full-Stack E-Commerce Platform | Apr 2026 - May 2026

React, TypeScript, Express, Prisma, MySQL, Docker

- Built a complete storefront and admin system covering products, categories, brands, cart, and checkout with category-based product attributes and responsive layouts
- Containerized the application with Docker for reproducible deployment

Livora - AI-Powered Healthcare Platform | Oct 2025 - Present

React, TypeScript, Node.js, PostgreSQL, LLM/RAG, Socket.IO

- Building a full-stack clinical platform's React front end: appointment booking, voice-driven prescriptions, lab order/result management with payments, and multi-disciplinary team (MDT) video consultations
- Implemented real-time UI updates via Socket.IO and a RAG-based assistant interface with medicine safety checks and risk stratification

Sales Data Warehouse and BI Reporting | Aug 2025 - Sep 2025

SQL, Python, Jupyter Notebook

- Designed and built a modern SQL data warehouse from scratch, consolidating sales data via ETL and dimensional modeling
- Built interactive BI dashboards with Python (Pandas, Matplotlib, Seaborn) for trend and segmentation analysis

Warehouse Management and Billing System | Freelance

Node.js, MySQL

- Built an inventory, billing, and sales-analytics system for a retail client, including client-facing reporting screens

Scraper Pipeline - AI-Powered Web Scraping and Extraction System | Jul 2026 - Present

Python, Playwright, Anthropic/OpenAI/Gemini/Groq/DeepSeek, pytest

- Built a 4-stage pipeline with a cost-aware multi-tier LLM cascade, Cloudflare/WAF bypass via headless-browser fallback, and a 92-test no-network suite

EDUCATION

University of Chittagong - B.Sc. in Computer Science and Engineering | 2022 - 2026 (Expected)

CGPA: 3.50/4.00 (through 6th semester)

Govt. City College, Chattogram - Higher Secondary Certificate, Science (GPA 5.00) | 2019 - 2022

Chittagong Collegiate School - Secondary School Certificate, Science (GPA 5.00) | 2013 - 2019

AWARDS AND ACHIEVEMENTS

- 2nd Place, ITBI Student Startup Pitch Fest 2026, CUET - for Livora (incl. incubation support)
- 1st Place, Robo Soccer, EEE Fest 2025, University of Chittagong
- Runner-up, Hackathon Segment, Chittagong Science Carnival (hosted by CUSS)
- 1st Runner-up, Robo Soccer, Bangabandhu Innovation Fair 2024, Premier University
- Finalist, Bangabandhu Innovation Grant (BIG), 2023
