SUMMARY

Computer Science undergraduate (University of Chittagong, expected 2026) and Founder/CEO of Livora, a full-stack AI-powered healthcare platform that won 2nd place and an incubation package at the ITBI Student Startup Pitch Fest 2026 (CUET). Builds and maintains full-stack CRM, booking, and e-commerce systems end to end: clean front-end and back-end code, bug fixing, and performance optimization, collaborating closely with senior engineers on technical architecture. Based in Chattogram.

EXPERIENCE

Founder and CEO - Livora (Self-employed) | May 2026 - Present

Chattogram, Bangladesh (Hybrid)

- Lead product, engineering, and business strategy for Livora, an AI-powered healthcare platform serving patients, doctors, lab technicians, and hospital administrators
- Won 2nd place at the ITBI Student Startup Pitch Fest 2026 (CUET), securing 6 months of free incubation space, mentoring, and startup-ecosystem support worth BDT 100,000
- Conducted an AI training workshop on the platform for practicing surgeons in Chittagong

SKILLS

Languages: Python, C++, TypeScript, JavaScript, SQL

Web and Backend: React, Node.js, Express, Prisma, Sequelize, REST APIs, Socket.IO

Data and Infrastructure: PostgreSQL, MySQL, Redis, Docker, Git/GitHub, CI/CD (GitHub Actions)

AI / LLM: LLM Integration (Google Gemini), RAG (Retrieval-Augmented Generation), Prompt Injection Defense

Other: Data Structures and Algorithms, Competitive Programming, Project Management

PROJECTS

Livora - AI-Powered Healthcare Platform | Oct 2025 - Present

React, TypeScript, Node.js, PostgreSQL, LLM/RAG, Socket.IO

- Building a full-stack clinical platform covering appointment booking, voice-driven prescriptions, lab order/result management with payments, and multi-disciplinary team (MDT) video consultations
- Implemented a persistent AI memory system and a RAG-based health assistant with medicine safety checks, risk stratification, and prompt-injection defenses; instrumented with Langfuse and Sentry

Aurora Gadgets - Full-Stack E-Commerce Platform | Apr 2026 - May 2026

React, TypeScript, Express, Prisma, MySQL, Docker

- Built a complete storefront and admin system covering products, categories, brands, cart, and checkout with category-based product attributes
- Containerized the application with Docker for reproducible deployment

Warehouse Management and Billing System | Freelance

Node.js, MySQL

- Built an inventory, billing, and sales-analytics system for a retail client, handling both front-end reporting screens and back-end business logic

Sales Data Warehouse and BI Reporting | Aug 2025 - Sep 2025

SQL, Python, Jupyter Notebook

- Designed and built a modern SQL data warehouse from scratch, consolidating sales data via ETL and dimensional modeling
- Built interactive BI dashboards with Python (Pandas, Matplotlib, Seaborn) for trend and segmentation analysis

Scraper Pipeline - AI-Powered Web Scraping and Extraction System | Jul 2026 - Present

Python, Playwright, Anthropic/OpenAI/Gemini/Groq/DeepSeek, pytest

- Built a 4-stage pipeline with a cost-aware multi-tier LLM cascade, crash-safe atomic writes, resume-by-default batch processing, and a 92-test no-network suite

EDUCATION

University of Chittagong - B.Sc. in Computer Science and Engineering | 2022 - 2026 (Expected)
CGPA: 3.50/4.00 (through 6th semester)

Govt. City College, Chattogram - Higher Secondary Certificate, Science (GPA 5.00) | 2019 - 2022

Chittagong Collegiate School - Secondary School Certificate, Science (GPA 5.00) | 2013 - 2019

AWARDS AND ACHIEVEMENTS

- 2nd Place, ITBI Student Startup Pitch Fest 2026, CUET - for Livora (incl. incubation support)
- 1st Place, Robo Soccer, EEE Fest 2025, University of Chittagong
- Runner-up, Hackathon Segment, Chittagong Science Carnival (hosted by CUSS)
- 1st Runner-up, Robo Soccer, Bangabandhu Innovation Fair 2024, Premier University
- Finalist, Bangabandhu Innovation Grant (BIG), 2023
