Subject: Application for an Internship Position

Dear Sir,

My name is Ahsanul Hoque, and I'm a final-year Computer Science and Engineering student at the University of Chittagong. I'm writing to apply for an internship position at AZNEO LIMITED.

On scheduling: I have university classes on weekdays, so I can work **onsite full-time on Saturdays**. On the other days I can work **after classes end**, in a **hybrid onsite or remote** setup, whichever fits the team better. I'm flexible on that split and happy to work around whatever schedule suits you.

I have hands-on experience in full-stack web development, e-commerce systems, retail and billing software, and embedded/IoT systems, using tools like React, Node.js, Python, SQL, and ESP32-based hardware. I believe this background aligns well with the kind of work AZNEO does.

An internship at AZNEO would give me the chance to apply what I've learned so far in a real, professional setting, and to grow as an engineer under proper industry guidance.

I've attached my CV for reference, and I'd welcome the chance to discuss this further at your convenience. Thank you for your time and consideration.

Sincerely,

Ahsanul Hoque

Founder & CEO, Livora
